Friday, November 5, 2021

Dear Cuba-Rushford Families,

Allegany County Department of Health reached out to Cuba-Rushford Central School and is looking to partner with our school district by offering the COVID-19 pediatric vaccine to children ages 5-11. If the vaccine was offered through a mobile unit on school grounds by our district, would parents or guardians be interested in having their child vaccinated?

This survey is intended to see if there is an interest in providing this as a pass-through service through our school and to determine the number of vaccines needed to meet the interest.

Please check a box below:

YES, I am interested _____

NO, I am not interested _____

Please return this questionnaire to your child's homeroom teacher for each child in your household between the ages of 5-11.

At this time, the district has not been informed when these vaccine sessions will be available.

The district will not be allowing any vaccinations to take place without written permission explicitly granted by a parent or legal guardian. There will be a formal consent form.

Thank you very much!

Carlos Gildemeister
Superintendent of Schools
Cuba-Rushford Central School

Where should this form go to?

Parent → Homeroom Teacher → Nurse → Cindy Bichler → Allegany Health Department
