

Mi Viaje Internacional

Students will create a complete, detailed itinerary for a one week trip to their country.
Students should include:

Daily round-trip flight costs from Buffalo, NY to their country's major city
(Use at least two different sites and track this EVERY day in a spreadsheet! Ex:
kayak.com, expedia.com, jetblue.com, delta.com, continental.com)

Transportation

(How will we get around once we arrive in your country?
ex: Trains, planes, rickshaw, cabs, etc...)

Lodging

(Fancy Hotels, Bed and Breakfasts, Hostels, something new like a tree house???)

Daily Currency Rates

(Use xe.com and track what 1 U.S. dollar is worth in the native currency. Do this
EVERY day and track it in a spreadsheet.)

Entertainment/Sightseeing

(Create a schedule for each day. You should plan on visiting at least three
landmarks/sites each day. Provide detailed descriptions of what is offered at these places
as well as the cost of these activities. Many may be free!)

Meals

(Plan three meals a day. Research famous restaurants/cuisines. Find and download
menus/prices, etc...if necessary, convert the prices into US dollars using xe.com)

Other Fun/Interesting Things

(This is your opportunity to really shine some light on your country. What makes it unique?
What festivals are going on? What do people do for entertainment? What is the school day
like? Incorporate what is interesting to you!)
