Health and Dental Examination Requirements

Dear Parents/Guardians:

New York State law requires a health examination for all students **entering the school district for the first time, and when entering Pre-K or K, 1st, 3rd, 5th, 7th, 9th, and 11th grades.** The examination must be completed by a New York State licensed physician, physician assistant, or nurse practitioner.

A dental certificate which states your child has been seen by a dentist or dental hygienist is also asked for at the same time. The school will provide you with a list of dentists and registered dental hygienists who offer dental services on a free or reduced cost basis if you ask for it.

- A copy of the health examination must be provided to the school within 30 days from when your child first starts at the school, and when your child starts PreK or K, 1st, 3rd, 5th, 7th, 9th, & 11th grades. If a copy is not given to the school within 30 days, the school will contact you.
- If your child has an appointment for an exam during this school year that is after the first 30days of school, please notify the Health Office with the date.
- For your convenience, a physical exam form and dental certificate for your health care providers are attached.
- Communication between private and school health staff is important for safe and effective care at school. Your healthcare provider may not share health information with school health staff without your signed permission. Please talk to your provider about signing their consent form for the school at the time of your child's appointment for the examination.

We suggest you make copies of the completed forms for your own records before sending them to the school health office.

Dental Health Certificate – Optional

Parent/Guardian: New York State law (Chapter 281) permits schools to request an oral health assessment at the same time a health examination is required. Your child may have a dental checkup during this school year to assess his/her fitness to attend school. Please complete Section 1 and take the form to your registered dentist or registered hygienist for an assessment. If your child had a dental checkup before he/she started the school, ask your dentist/dental hygienist to fill out Section 2. Return the completed form to the school's medical director or school nurse as soon as possible.

I understand that by signing this form I am consenting for the child named above to receive a basic oral health assessment. I understand this assessment is only a limited means of evaluation to assess the student's dental health, and I would need to secure the services of a dentist in order for my child to receive a complete dental examination, with x-rays if necessary, to maintain good oral health.

I also understand that receiving this preliminary oral health assessment does not establish any new, ongoing, or continuing doctor-patient relationship. Further, I will not hold the dentist or those performing this assessment responsible for the consequences or results should I choose NOT to follow the recommendations listed below.

The designation of *not in fit condition of dental health to permit attendance at the public school* does not preclude the student from attending school.
